Aero Precision invests in the Kids S.A.F.E. Foundation

Aero Precision donates to help protect children from a firearms accident!

10/13/2020

Eugene, OR

The Kids S.A.F.E. Foundation is pleased to announce a continued partnership with Aero Precision for the remainder of 2020 and for 2021. Aero Precision has donated \$10,000.00 to the Kids S.A.F.E. Foundation to help us continue our important work to help protect children from a firearms accident through proper education. This kind donation will help us expand our program nationally, together we will save lives. This donation shows great responsibility of a Firearm manufacturer by supporting a kids safety Organization.

Since the founding of the Kids S.A.F.E. Foundation, back in 2016, we have reached nearly 21,000 kids in 4 states and taught them lifesaving skills. The goal is to empower our youth to make good, safe, decisions if they were to come across an unsecured firearm. According to the CDC's we lose on average 8-9 per day to unsecured firearm accident inside of the home. KSF is actively trying to stop this. Support from the Firearm industry is critical to our success. We are thankful for the support.

The Kids S.A.F.E. Foundation is a 501©3 nonprofit organization, based in Oregon. Their mission is to educate children and families of the potential hazards of an unsecured firearm. It's important to note that they believe education will take the country further than any new type of restriction or legislation. With an estimated 450 million firearms in the United States, there is no way to ban or confiscate them, so we should invest in proper education. Aero Precision did just that.

You can find out more information about both of these organizations on their websites:
