The Kids S.A.F.E. Foundation Heads For Hawaii

The Kids S.A.F.E. Foundation is headed to Hawaii to teach firearm Safety and Accident prevention to the youth of Hawaii. Eugene, OR 7/5/2021

The Kids S.A.F.E. Foundation is pleased to announce that they are headed to Oahu and the island of Maui to teach their Kids Firearm Safety 1 and 2 Classes. This is a great opportunity to reach the children of Hawaii and show different organizations there that education is a viable option for the safety of their children. The Kids S.A.F.E. Foundation is an apolitical organization dedicated to empowering children to make good, safe decisions if they are ever come across an unsecured firearm. They have modeled their Kids Firearm Safety program similar to water safety, which makes their program perfect for families with or without firearms inside of their homes. Their approach is to use factual information not fear to teach children important life skills. This has proven to help engage with kids and statistically lower the chance of a fatality.

Since the founding of the Kids S.A.F.E. Foundation, back in 2016, we have reached over 22,000 kids in 5 states and taught them lifesaving skills. The goal is to empower our youth to make good, safe, decisions if they were to come across an unsecured firearm. According to the CDC's data we lose on average 8-9 per day to unsecured firearm accident inside of the home. Kids S.A.F.E. Foundation is actively working to save the lives of our most vulnerable citizens, our children.

The Kids S.A.F.E. Foundation is a 501(C)3 nonprofit organization, based in Oregon. Their mission is to educate children and families of the potential hazards of an unsecured firearm. It's important to note that they believe education will take the country further than any new type of restriction or legislation. With an estimated 450 million firearms in the United States, there is no way to ban or confiscate them, so we should invest in proper education. The Kids S.A.F.E. Foundation is thankful for the opportunity to be working with the Hawaii Firearms Coalition, the Hawaii Youth Livestock Association, Smith's Taekwondo, and the 808 Gun Range. Their help and support has made this project possible. ZERO firearm accidents is the only acceptable goal!!™
