## Aero Precision invests in the Kids S.A.F.E. Foundation.

---

Aero Precision donates once again to help protect children from a firearms accident!

12/06/2021 Eugene, OR

The Kids S.A.F.E. Foundation is pleased to announce a continued partnership with Aero Precision for 2022. Aero Precision has donated \$24,000.00 to the Kids S.A.F.E. Foundation to help us continue our important work to help protect children from a firearms accident through proper education. This investment in the Kids S.A.F.E. Foundation will help give our organization the financial stability and will help increase our outreach opportunities across the country. This donation shows great responsibility from a Firearm manufacturer by supporting a kids firearm safety organization.

Since the founding of the Kids S.A.F.E. Foundation, back in 2016, we have reached over 23,000 kids in 5 states and taught them lifesaving skills. The goal is to empower our youth to make good, safe, decisions if they were to come across an unsecured firearm. According to the CDC's statistics we lose on average 8-9 per day to unsecured firearm accident inside of the home. KSF is actively trying to stop this. Support from the Firearm industry is critical to our success. We are thankful for the support.

The Kids S.A.F.E. Foundation is a 501©3 nonprofit organization, based in Oregon. Their mission is to educate children and families of the potential hazards of an unsecured firearm. It's important to note that they believe education will take the country further than any new type of restriction or legislation. We have an estimated 450 million firearms in the United States, there is no way to ban or confiscate them, so we should invest in proper education. Aero Precision are heroes to the next generation.
